SECRET

MEMORANDUM FOR: Chief, Instructional Support Staff/OTR

THRU : Mr. Charles Briggs, Dir/PPB

SUBJECT : Quotas for Defense Intelligence School Courses  
in FY 1973

REFERENCE : Memo dtd 7 Jan 72 to DD/S STO frm C/ISS/OTR,  
same subj

1. All of the Offices within the Support Directorate have been queried regarding their interest in sending personnel to Defense Intelligence School Courses offered in FY 73. The attachment summarizes the quota desired for the Support Directorate in FY 73.

2. The Office of Finance is the only component in the Support Directorate which expressed an interest in sending personnel to the DIS courses. Based on past experience the Office of Finance has found the Information Science in Support of Intelligence Functions Course to be worthwhile for select SF careerists and, therefore, desires two spaces for FY 73. The interest in the Indications and Warning Course and the DIAOLS/COINS Course at this time is for the purpose of evaluating them for relevancy to Agency financial management programs.

3. Although the brochure from the Defense Intelligence School indicates the Information Science in Support of Intelligence Functions Course runs for 12 weeks, the Office of Finance has information that this course will be modified and reduced in length from twelve to five weeks. It is also understood that the first running of the shorter course will be scheduled for September 1972.

4. The Information Processing Coordinator/DDS has been advised of the information contained in this memorandum.
